DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 8/7/08 has been entered.

Response to Arguments

Applicant's arguments, filed 8/7/08, have been fully considered and are persuasive. The previous rejection has been withdrawn.

Allowable Subject Matter

Claims 1 and 17 are allowed. The following is an examiner's statement of reasons for allowance: Masaki et al. (JP Pub No. 07-007810) in view of Shirakawa et al. (U.S. Pat. No. 6,843,335) teaches the vehicle power supply system of claim 1 however does not teaches the inverter unit is attached and fixed, in physical contact with a side

of the battery, by the metal plate. At least this further limitation is not taught or rendered obvious by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Krieger et al. (U.S. Pat. No. 6,799,993) teaches the use of a power conversion system for converting DC power from a battery to AC power mounted in portable relationship.
